

For the Great Outdoors

**KING
STARBOARD®**

www.kingstarboard.com

You Will

- Cut it
- Bend it
- Fabricate it
- Sand it
- Engrave it
- Use standard woodworking tools
- Make plugs from it
- Create a finished edge
- Heat-weld it
- Easily clean it (including pressure wash)

You Won't

- Paint it
- Use normal glues
- Mark it with a pencil or pen
- Stain it
- Damage it with fuel or oil spills
- Produce dust when fabricating it

It Will

- Hold mechanical fasteners
- Never need maintenance
- Finish cleanly
- Contract & expand
- Resist most stains

It Will Not

- Rot, delaminate or swell
- Retain odors
- Splinter
- Fade
- Easily scratch or scuff
- Wear
- Absorb water

It Is

- Environmentally Stabilized
- A "one-step" material
- Easy to fabricate
- Available in six standard colors
- Impervious to most chemicals
- Made to last a lifetime
- Protected with a masking on one side
- Recyclable
- An ideal material for any "wet" areas
- Available in a 54" x 96" sheet

It Is Not

- A structural material
- Expensive
- An appropriate countertop material

It Has

- A Matte finish on both sides
- Solid color throughout the sheet
- Color and tolerance consistency
- A thousand uses

It Does Not Have

- A smooth texture
- A grain that needs matching
